Bam Bam White Blush

NEW COLOUR

English Daisy/Bellis *Bellis Perennis*

# BAM BAM WHITE BLUSH

## Small plant, big personality!

- Unique, fully double flowers on non-stretching stems
- Compact plants with clean foliage are perfect for packs and pots
- 100% annual flowering with no vernalization needed – ideal for both Autumn and Spring production
- Unique addition to your cool climate assortment
- Now with all 3 important colors in Bellis
- Pink blushing is observed on the edge of the flowers in certain conditions

Bright and Early Bicolour

**NEW SERIES**

**Kale Fringed Leaf** *F1 Brassica oleracea*

# BRIGHT AND EARLY

## Early color, whatever the weather!

- Genetically compact ornamental Cabbage with neat growth habit; requires less PGRs
- Early coloring without the need for cold temperatures – shorter production cycle
- 3 bright, contrasting colors with attractive frilled leaves
- A great companion to sell alongside Pansy and Viola in Autumn and Winter
- Great cold tolerance, will tolerate frosts

## Bright and Early | Market Comparisons

**Bright and Early White 70106337**

**Leading Competitor 1**

**Leading Competitor 2**

Pictures show the early colouring of Bright and Early White vs the competition. These images were taken in October in the UK trials, just 77 days from sowing. The crown is also a cleaner white in comparison, as most varieties are normally more of a creamy white.

NEW COLOUR

**Vinca** *Catharanthus roseus*

# SUNJEWELS ROSE WITH EYE

**Quality, for when quantity is required!**

- An economical option for high density pack production
- Large flowers with good flower form in the OP class – petals overlap creating a full, rounded flower
- Good uniformity and branching
- Excellent heat tolerance
- Rose with eye adds a popular deep pink shade to the color range, which contrasts well with the lighter colors

# TOO HOT TO HANDLE

## What a Scorcher!

- Stunning landscape variety that will tolerate the harshest conditions
- Tall, branching habit which adds height and structure to mass plantings with dramatic effect!
- Two bright and bold colors available that resist fading in extreme heat and humidity
- Facultative short day response – will flower faster in short/neutral days (will flower in long days but it will take 3-4 weeks longer)
- Secondary flowers form all around the plant to create a mass of color

## Too Hot to Handle | Additional information

*Too Hot to Handle Scarlet*

*Too Hot to Handle Purple*

Extreme heat tolerance and an excellent shrub like habit, make Too Hot to Handle a great option for filling the landscape in hot and humid locations, with neutral day length. Pictures taken in heat tolerant trials in India.

Mezmerize® Chocolate Rose

**NEW SERIES**

**Coleus** *Solenostemon blumei*

# MEZMERIZE®

## Prepare to be Mezmerized!

- A stunning collection of weird and wonderful colors which are perfect for adding contrast and texture to any garden
- Superior heat and sun tolerance – leaves are resistant to curling in the midday sun, even in low humidity
- Also can be used in shaded areas to add a burst of color
- Late flowering to prolong the beauty of the foliage
- Strong branching and vigor – perfect for large pots and containers

Leading competitor

Mezmerize® Chocolate Rose

Mezmerize® Rusty Red

Mezmerize® Mosaic

Pictures were taken in heat tolerance trials in Southern Europe under long days and low relative humidity. In the far-left picture, you can see the leaves curling in the midday sun on the comparison variety, but all 3 colours of Mezmerize were not affected.

Dottie Warm Rose

NEW SERIES

Digitalis F1 *Digitalis purpurea*

# DOTTIE

## Dramatically beautiful!

- Early to flower: long, dramatic flower spikes which are quickly followed by the secondary flowers
- Up to 15cm more compact than the leading competitors, with neat foliage
- 5 beautiful colors with contrasting speckling to the throat, including the unique Warm Rose
- Quickly fills larger pots (15-25cm) with ease – great for impulse sales in stores

Sirius Lime

## NEW SERIES

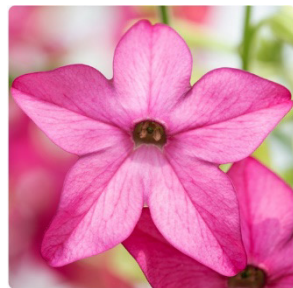

**Nicotiana** F1 *Nicotiana x sanderae*

# SIRIUS

## A new star is burning in the sky!

- A new collection of tall Nicotiana varieties which are perfect for landscaping, or adding structure to the garden
- Flowers are 1-2cm larger in diameter compared to our Perfume series
- Bred for heat and sun tolerance, so flowers will stay open in the heat of the day without curling
- Good branching, so many flower stems per plant for maximum color impact
- Well suited to larger pot production. For sizes 23cm and larger, 3 plants per pot can be used

# ICE CREAM SUNDAE

- Free flowering variety that produces many edible flowers, that have a subtle, spicy and peppery flavour
- Genetically compact habit, that holds it's flowers above the dark green foliage
- Highly ornamental as flowers mature from bright yellow through to scarlet and everything in-between

**Nasturtium Ice Cream Sundae**

# SILVER DUST

- Winter and Summer Squash with attractive silver, almost metallic foliage and medium sized, rounded fruits that ripen from green to orange
- Fruits can weigh up to 900-1250g and are suitable for the fresh market or storage
- Fruits are lime green in color before maturity creating a nice contrast against the foliage, giving them ornamental appeal even before they are ripe!
- Great non-trailing patio habit, easy to control
